Disclaimer: All implied warranties, including but not limited to the implied warranties of satisfactory quality, fitness for a particular purpose, non-infringement and accuracy, are excluded to the extent that they may be excluded as a matter of law. To the extent permitted by applicable law, the Board and the Foundation expressly disclaim all liability howsoever arising whether in contract, tort or otherwise (including, but not limited to, liability for any negligent act or omissions) to any person in respect of any claims or losses of any nature, arising directly or indirectly from: (i) anything done or the consequences of anything done or omitted to be done wholly or partly in reliance upon the whole or any part of the contents of this publication; and (ii) the use of any data or materials contained in this publication or otherwise. To the extent permitted by applicable law, the Board, the Foundation, the authors and the publishers shall not be liable for any loss or damage of any kind arising from use of and/or reliance on the contents of this publication or any translation thereof, including but not limited to direct, indirect, incidental or consequential loss, punitive damages, penalties or costs.

Information contained in this publication does not constitute advice and should not be used as a basis for making decisions or treated as a substitute for specific advice on a particular matter from a suitably qualified professional person. For relevant accounting requirements, reference must be made to the Standard issued by the Board.

Any names of individuals, companies and/or places used in this publication are fictitious and any resemblance to real people, entities or places is purely coincidental.

Right of use: Although the Foundation encourages you to use this module for educational purposes, you must do so in accordance with the terms of use below. If you intend to include our material in a commercial product, please contact us as you will need a separate licence. For details on using our Standards, please visit www.ifrs.org/issued-standards.

You must ensure you have the most current material available from our website. Your right to use this module will expire when this module is withdrawn or updated, at which time you must cease to use it and/or make it available. It is your sole responsibility to ensure you are using relevant material by checking the Foundation's website for any amendments to the Standard, SME Implementation Group Q&As not yet incorporated and/or new versions of the modules.

Terms of Use

- 1) You can only reproduce the module in whole or in part in a printed or electronic stand-alone document provided that:
 - (a) such document is supplied to participants free of charge;
 - (b) you do not use or reproduce, or allow anyone else to use or reproduce, the Foundation logo that appears on or in the module;
 - (c) you do not use or reproduce any trade mark that appears on or in the module if you are using all or part of the material to incorporate into your own documentation; and
 - (d) you can only provide this module in whole through your website if you include a prominent link to our website (please see our [terms and conditions](#) page for details on how to link your website to ours).
- 2) The trade marks include those listed below.
- 3) When you copy any extract from this publication for inclusion in another document you must ensure:
 - (a) the documentation includes a copyright acknowledgement;
 - (b) the documentation includes a statement that the Foundation is the author of the module and that the original module can be accessed via the IFRS website www.ifrs.org;
 - (c) the documentation includes in a prominent place an appropriate disclaimer, like that above;
 - (d) the extract is shown accurately; and
 - (e) the extract is not used in a misleading context.

If you intend to provide any part of this module in print or electronically for any other purpose, please contact the Foundation as you will need a written licence which may or may not be granted. For more information, please contact the licences team (www.ifrs.org/legal/education-material-licensing).

Please address publication and copyright matters to IFRS Foundation Publications Department:

Module 8—Notes to the Financial Statements

The accounting requirements applicable to small and medium-sized entities (SMEs) discussed in this module are set out in the *IFRS for SMEs* Standard, issued by the International Accounting Standards Board (Board) in October 2015. This module has been prepared by IFRS Foundation education staff. The contents of Section 8 *Notes to the Financial Statements* of the *IFRS for SMEs* Standard are set out in this module and shaded grey. The Glossary of terms of the *IFRS for SMEs* Standard (Glossary) is also part of the requirements. Terms defined in the Glossary are reproduced in **bold type** the first time they appear in the text of Section 8. The notes and examples inserted by the education staff are not shaded. These notes and examples do not form part of the *IFRS for SMEs* Standard and have not been approved by the Board.

INTRODUCTION

Which version of the *IFRS for SMEs*[®] Standard?

When the *IFRS for SMEs* Standard was first issued in July 2009, the Board said it would undertake an initial comprehensive review of the Standard to assess entities' experience of the first two years of its application and to consider the need for any amendments. To this end, in June 2012, the Board issued a Request for Information: *Comprehensive Review of the IFRS for SMEs*. An Exposure Draft proposing amendments to the *IFRS for SMEs* Standard was subsequently published in 2013, and in May 2015 the Board issued *2015 Amendments to the IFRS for SMEs* Standard.

The document published in May 2015 only included amended text, but in October 2015, the Board issued a fully revised edition of the Standard, which incorporated additional minor editorial amendments as well as the substantive May 2015 revisions. This module is based on that version.

The *IFRS for SMEs* Standard issued in October 2015 is effective for annual periods beginning on or after 1 January 2017. Earlier application was permitted, but an entity that did so was required to disclose the fact.

Any reference in this module to the *IFRS for SMEs* Standard refers to the version issued in October 2015.

This module

This module focuses on the presentation of the notes to financial statements applying Section 8 *Notes to the Financial Statements* of the *IFRS for SMEs* Standard. It introduces the subject and reproduces the official text along with explanatory notes and examples designed to enhance understanding of the requirements. In addition, the module includes questions designed to test your understanding of the requirements and a case study that provides a practical opportunity to apply the requirements to present information in the notes to the financial statements applying the *IFRS for SMEs* Standard.

Module 8—Notes to the Financial Statements

Upon successful completion of this module, you should, within the context of the *IFRS for SMEs* Standard, be able to:

- know the structure of the notes and the order in which they are presented;
- know the information to disclose in the summary of significant accounting policies;
- understand the requirement to present information about significant judgements in applying accounting policies; and
- understand how to present information about key sources of estimation uncertainty.

IFRS for SMEs Standard

The *IFRS for SMEs* Standard is intended to apply to the general purpose financial statements of entities that do not have public accountability (see Section 1 *Small and Medium-sized Entities*).

The *IFRS for SMEs* Standard is comprised of mandatory requirements and other non-mandatory material.

The non-mandatory material includes:

- a preface, which provides a general introduction to the *IFRS for SMEs* Standard and explains its purpose, structure and authority;
- implementation guidance, which includes illustrative financial statements and a table of presentation and disclosure requirements;
- the Basis for Conclusions, which summarises the Board's main considerations in reaching its conclusions in the *IFRS for SMEs* Standard issued in 2009 and, separately, in the 2015 Amendments; and
- the dissenting opinion of a Board member who did not agree with the issue of the *IFRS for SMEs* Standard in 2009 and the dissenting opinion of a Board member who did not agree with the 2015 Amendments.

In the *IFRS for SMEs* Standard, Appendix A: Effective date and transition, and Appendix B: Glossary of terms, are part of the mandatory requirements.

In the *IFRS for SMEs* Standard, there are appendices to Section 21 *Provisions and Contingencies*, Section 22 *Liabilities and Equity* and Section 23 *Revenue*. These appendices provide non-mandatory guidance.

The *IFRS for SMEs* Standard has been issued in two parts: Part A contains the preface, all the mandatory material and the appendices to Section 21, Section 22 and Section 23; and Part B contains the remainder of the material mentioned above.

Further, the SME Implementation Group (SMEIG), which assists the Board with supporting implementation of the *IFRS for SMEs* Standard, publishes implementation guidance as 'questions and answers' (Q&As). These Q&As provide non-mandatory, timely guidance on specific accounting questions raised with the SMEIG by entities implementing the *IFRS for SMEs* Standard and other interested parties. At the time of issue of this module (September 2018) the SMEIG has not issued any Q&As relevant to this module.

Module 8—Notes to the Financial Statements

Introduction to the requirements

The objective of general purpose financial statements of a small or medium-sized entity is to provide information about the entity's financial position, performance and cash flows that is useful for economic decision-making by a broad range of users who are not in a position to demand reports tailored to meet their particular information needs. Such users include, for example, owners who are not involved in managing the business, existing and potential creditors and credit rating agencies.

Section 3 *Financial Statement Presentation* sets out general presentation requirements and Sections 4–7 specify requirements for the presentation of the financial statements. Almost all sections of the *IFRS for SMEs* specify disclosures, most of which are presented in the notes rather than in the financial statements that are the subject of Sections 4–7. Moreover, additional disclosures are required when compliance with the specific requirements in the *IFRS for SMEs* Standard is insufficient to enable users to understand the effect of particular transactions, other events and conditions on the entity's financial position, financial performance and cash flows (see paragraphs 3.2 and 8.2(c)).

Section 10 *Accounting Policies, Estimates and Errors* specifies how to select and apply accounting policies and how to report changes in accounting policies, changes in accounting estimates and the correction of prior period errors. This section requires disclosure of the accounting policies selected and of the most sensitive estimates and other judgements made in applying the accounting policies selected.

Section 8 *Notes to the Financial Statements* sets out the principles underlying information to be presented in the notes to the financial statements and principles on how to present the information. This Section specifies the structure of the notes and requires disclosure of significant accounting policies selected and disclosure of the most sensitive estimates and other judgements made in applying the accounting policies.

Disclosure of the most important of these judgements enables users of financial statements to understand better how the accounting policies are applied and to make comparisons between entities regarding the basis on which managements make these judgements.

What has changed since the 2009 *IFRS for SMEs* Standard

This section of the *IFRS for SMEs* Standard was unchanged by the 2015 Amendments. However, this module reproduces other editorial changes.

Module 8—Notes to the Financial Statements

REQUIREMENTS AND EXAMPLES

The illustrative disclosures in notes presented in the example in this module are not intended to illustrate all aspects of disclosures in notes required by the *IFRS for SMEs* Standard. Most sections of the *IFRS for SMEs* Standard establish section-specific presentation and disclosure requirements. Requirements for all sections are summarised in the table of presentation and disclosure requirements included in the implementation guidance that accompanies, but is not part of, the *IFRS for SMEs* Standard.

The disclosure requirements in the *IFRS for SMEs* Standard should be regarded as minimum requirements. However, an entity need not provide a specific disclosure required by the *IFRS for SMEs* Standard if the information resulting from that disclosure is not material. Materiality is discussed in paragraph 2.6.

Additional disclosures are necessary when compliance with the specific requirements in the *IFRS for SMEs* Standard is insufficient to enable users to understand the effect of particular transactions, other events and conditions on the entity's financial position and financial performance. Accordingly, an entity must include in the notes to financial statements information that is not presented elsewhere in the financial statements but is relevant to understanding them.

Scope of this section

- 8.1 This section sets out the principles underlying information that is to be presented in the **notes** to the **financial statements** and how to present it. Notes contain information in addition to that presented in the **statement of financial position**, the **statement of comprehensive income** (if presented), the **income statement** (if presented), the combined **statement of income and retained earnings** (if presented), the **statement of changes in equity** (if presented) and **statement of cash flows**. Notes provide narrative descriptions or disaggregations of items presented in those statements and information about items that do not qualify for **recognition** in those statements. In addition to the requirements of this section, nearly every other section of this Standard requires disclosures that are normally presented in the notes.

Module 8—Notes to the Financial Statements

Structure of the notes

- 8.2 The notes shall:
- (a) present information about the basis of preparation of the financial statements and the specific **accounting policies** used, in accordance with paragraphs 8.5–8.7;
 - (b) disclose the information required by this Standard that is not presented elsewhere in the financial statements; and
 - (c) provide information that is not presented elsewhere in the financial statements but is relevant to an understanding of any of them.

Notes

The application of the *IFRS for SMEs* Standard, with additional disclosures when necessary, is presumed to result in financial statements that achieve a fair presentation of the financial position, financial performance and cash flows of SMEs. Additional disclosures are necessary when compliance with the specific requirements in the *IFRS for SMEs* Standard is insufficient to enable users to understand the effect of particular transactions, other events and conditions on the entity's financial position, financial performance and cash flows (see paragraph 3.2).

- 8.3 An entity shall, as far as practicable, present the notes in a systematic manner. An entity shall cross-reference each item in the financial statements to any related information in the notes.
- 8.4 An entity normally presents the notes in the following order:
- (a) a statement that the financial statements have been prepared in compliance with the *IFRS for SMEs* (see paragraph 3.3);
 - (b) a summary of significant accounting policies applied (see paragraph 8.5);
 - (c) supporting information for items presented in the financial statements, in the sequence in which each statement and each line item is presented; and
 - (d) any other disclosures.

Notes

Often a reporting entity will present general information about the reporting entity in the first note to the financial statements (ie positioned before the statement of compliance). This note commonly includes:

- (i) information about the domicile and legal form of the entity, its country of incorporation and the address of its registered office (see paragraph 3.24(a));
- (ii) a description of the nature of the entity's operations and its principal activities (see paragraph 3.24(b)); and
- (iii) the date when the financial statements were authorised for issue and who gave that authorisation (see paragraph 32.9).

Other information that could be relevant include information such as the type and number of the legal document under which the entity was incorporated or the legal term of the entity (eg the length of its life, such as whether it is a limited life entity or its duration is indefinite). This information could be useful in evaluating the going concern of the entity.

Module 8—Notes to the Financial Statements

Example—notes to the financial statements

The notes set out in this example illustrate how note disclosures might be displayed by a small entity that manufactures and sells candles. Each entity will need to consider each disclosure requirement necessary to achieve a fair presentation given that entity's particular circumstances. These illustrative note disclosures should not be regarded as a template appropriate for all entities.

Ex 1 A Group that manufactures candles prepared the notes to its consolidated financial statements as follows:

XYZ Limited

Accounting policies and explanatory notes to the consolidated financial statements for the year ended 31 December 20X2

1. General information

XYZ (Holdings) Limited (the Company) is a limited company incorporated in A Land. The address of its registered office and principal place of business is _____. The group consists of the Company and its wholly-owned subsidiary XYZ (Trading) Limited. Their principal activities are the manufacture and sale of candles.

2. Basis of preparation

These consolidated financial statements have been prepared in accordance with the *IFRS for SMEs* Standard issued by the International Accounting Standards Board. The financial statements are presented in the currency units (CU) of A Land, which is the presentation currency of the Group and the functional currency of the company and its subsidiary.

The presentation of financial statements in accordance with the *IFRS for SMEs* Standard requires the selection and consistent application of accounting policies to transactions and events. The principal accounting policies of the Group are set out in note 3.

In some cases, applying the Group's accounting policies requires the use of estimates and other judgements. Management's judgements in applying the Group's accounting policies with the most significant effect on the amounts recognised in the financial statements are set out in note 4.

3. Accounting policies (see example 2)

4. Key sources of estimation uncertainty

Long-service payments

In determining the liability for long-service payments (explained in note 20), management make an estimate of salary increases over the following five years, the discount rate for the next five years to use in the present value calculation and the number of employees expected to leave before they receive the benefits.

Module 8—Notes to the Financial Statements

5. Restriction on payment of dividend

Under the terms of the bank loan and bank overdraft agreements, dividends cannot be paid to the extent that they would reduce the balance of retained earnings below the sum of the outstanding balance of the bank loan and the bank overdraft.

6. Revenue

	20X2	20X1
	<i>CU</i>	<i>CU</i>
Sale of goods	6,743,545	5,688,653
Royalties—licensing of candle-making patents	120,000	120,000
	<u>6,863,545</u>	<u>5,808,653</u>

7. Other income

Other income includes dividends received from an associate of CU25,000 in both 20X1 and 20X2 and gain on disposal of property, plant and equipment of CU63,850 in 20X2.

8. Finance costs

	20X2	20X1
	<i>CU</i>	<i>CU</i>
Interest on bank loan and overdraft	(21,250)	(30,135)
Interest on finance leases	(5,116)	(6,577)
	<u>(26,366)</u>	<u>(36,712)</u>

9. Profit before tax

The following items have been recognised as expenses in determining profit before tax:

	20X2	20X1
	<i>CU</i>	<i>CU</i>
Cost of inventories recognised as expense	5,178,530	4,422,575
Research and development cost (included in other expenses)	31,620	22,778
Foreign exchange loss on trade payables (included in other expenses)	1,000	–
Warranty expense (included in cost of sales)	5,260	7,340

Module 8—Notes to the Financial Statements

10. Income tax expense

	20X2	20X1
	CU	CU
Current tax	271,647	190,316
Deferred tax (note 16)	(1,397)	(757)
	<u>270,250</u>	<u>189,559</u>

Income tax is calculated at 40% (20X1: 40%) of the estimated assessable profit for the year.

Income tax expense for the year CU270,250 in 20X2 (CU189,559 in 20X1) differs from the amount that would result from applying the tax rate of 40% (both 20X2 and 20X1) to profit before tax because, under the tax laws of A Land, some employee remuneration expenses (CU20,670 in 20X2 and CU16,750 in 20X1) that are recognised in measuring profit before tax are not tax deductible.

11. Trade and other receivables

	20X2	20X1
	CU	CU
Trade debtors	528,788	528,384
Prepayments	56,760	45,478
	<u>585,548</u>	<u>573,862</u>

12. Inventories

	20X2	20X1
	CU	CU
Raw materials	42,601	36,450
Work in progress	1,140	900
Finished goods	13,640	10,570
	<u>57,381</u>	<u>47,920</u>

Module 8—Notes to the Financial Statements

13. Investment in associate

The Group owns 35% of an associate whose shares are not publicly traded.

	20X2	20X1
	<i>CU</i>	<i>CU</i>
Cost of investment in associate	107,500	107,500
Dividend received from associate (included in other income)	25,000	25,000

14. Property, plant and equipment

	<i>Land and buildings</i>	<i>Fixtures and equipment</i>	<i>Total</i>
	<i>CU</i>	<i>CU</i>	<i>CU</i>
Cost			
1 January 20X2	1,960,000	1,102,045	3,062,045
Additions	–	485,000	485,000
Disposals	–	(241,000)	(241,000)
31 December 20X2	<u>1,960,000</u>	<u>1,346,045</u>	<u>3,306,045</u>
Accumulated depreciation and impairment			
1 January 20X2	390,000	270,590	660,590
Annual depreciation	30,000	240,360	270,360
Impairment	–	30,000	30,000
Less accumulated depreciation on assets disposed of	–	(204,850)	(204,850)
31 December 20X2	<u>420,000</u>	<u>336,100</u>	<u>756,100</u>
Carrying amount			
31 December 20X2	<u>1,540,000</u>	<u>1,009,945</u>	<u>2,549,945</u>

During 20X2 the Group noticed a significant decline in the efficiency of a major piece of equipment and carried out a review of its recoverable amount. The review led to the recognition of an impairment loss of CU30,000.

The carrying amount of the Group's fixtures and equipment includes an amount of CU40,000 (20X1: CU60,000) in respect of assets held under finance leases.

On 10 December 20X2, the directors resolved to dispose of a machine. The machine's carrying amount of CU1,472 is included in fixtures and equipment at 31 December 20X2, and trade payables include the Group's remaining obligation of CU1,550 on the acquisition of this machine. Because the proceeds on disposal are expected to exceed the net carrying amount of the asset and related liability, no impairment loss has been recognised.

Module 8—Notes to the Financial Statements

15. Intangible assets

Software:

Cost	<i>CU</i>
1 January 20X2	8,500
Additions	–
Disposals	–
31 December 20X2	<u>8,500</u>
Accumulated depreciation and impairment	
1 January 20X2	5,950
Annual amortisation (included in administrative expenses)	<u>1,700</u>
31 December 20X2	<u>7,650</u>
Carrying amount	
31 December 20X2	<u>850</u>

16. Deferred tax

Differences between amounts recognised in the income statement and amounts reported to tax authorities in connection with investments in the subsidiary and associate are insignificant.

The deferred tax assets are the tax effects of expected future income tax benefits relating to:

- the long-service benefit (note 20), which will not be tax deductible until the benefit is actually paid, but which has already been recognised as an expense in measuring the Group's profit for the year.
- the foreign exchange loss on trade payables, which will not be tax deductible until the payables are settled, but which has already been recognised as an expense in measuring the Group's profit for the year.

Management considers it probable that taxable profits will be available against which the future income tax deductions can be utilised.

The following are the deferred tax liabilities (assets) recognised by the Group:

	<i>Software</i>	<i>Foreign exchange loss</i>	<i>Long- service benefit</i>	<i>Total</i>
	<i>CU</i>	<i>CU</i>	<i>CU</i>	<i>CU</i>
1 January 20X1	1,700	–	(3,855)	(2,155)
Charge (credit) to profit or loss for the year	<u>(680)</u>	<u>–</u>	<u>(77)</u>	<u>(757)</u>
1 January 20X2	1,020	–	(3,932)	(2,912)
Charge (credit) to profit or loss for the year	<u>(680)</u>	<u>(400)</u>	<u>(317)</u>	<u>(1,397)</u>
31 December 20X2	<u>340</u>	<u>(400)</u>	<u>(4,249)</u>	<u>(4,309)</u>

Module 8—Notes to the Financial Statements

The deferred tax assets for the foreign exchange loss and the long-service benefits and the deferred tax liability for software relate to income tax in the same jurisdiction and the law allows net settlement. Therefore, they have been offset in the statement of financial position as follows:

	20X2	20X1
	CU	CU
Deferred tax liability	340	1,020
Deferred tax asset	<u>(4,649)</u>	<u>(3,932)</u>
	<u>(4,309)</u>	<u>(2,912)</u>

17. Bank overdraft and loan

	20X2	20X1
	CU	CU
Bank overdraft	83,600	115,507
Bank loan—fully repayable in 20X4, prepayable without penalty	<u>50,000</u>	<u>150,000</u>
	<u>133,600</u>	<u>265,507</u>

The bank overdraft and loan are secured by a floating lien over land and buildings owned by the Group with a carrying amount of CU266,000 at 31 December 20X2 (CU412,000 at 31 December 20X1).

Interest is payable on the bank overdraft at 200 points above the London Interbank Borrowing Rate (LIBOR). Interest is payable on the seven-year bank loan at a fixed rate of 5% of the principal amount.

18. Trade payables

Trade payables at 31 December 20X2 include CU42,600 denominated in foreign currencies (nil at 31 December 20X1).

Module 8—Notes to the Financial Statements

19. Provision for warranty obligations

Changes in the provision for warranty obligations during 20X2 were:

	20X2
	<i>CU</i>
1 January 20X2	5,040
Additional accrual during the year	5,260
Cost of warranty repairs and replacement during the year	(6,100)
31 December 20X2	<u>4,200</u>

The obligation is classified as a current liability because the warranty is limited to 12 months after the date of sale of the relevant goods.

20. Employee benefit obligation—long-service payments

The Group's employee benefit obligation for long-service payments under a government-mandated plan is based on a comprehensive actuarial valuation as of 31 December 20X2 and is as follows:

	20X2
	<i>CU</i>
Obligation at 1 January 20X2	9,830
Additional accrual during the year	7,033
Benefit payments made in year	(6,240)
Obligation at 31 December 20X2	<u>10,623</u>

The obligation is classified as:

	20X2	20X1
	<i>CU</i>	<i>CU</i>
Current liability	4,944	4,754
Non-current liability	<u>5,679</u>	<u>5,076</u>
Total	<u>10,623</u>	<u>9,830</u>

Module 8—Notes to the Financial Statements

21. Obligations under finance leases

The Group holds a specialised machine with an estimated useful life of five years under a five-year finance lease. The future minimum lease payments are as follows:

	20X2	20X1
	<i>CU</i>	<i>CU</i>
Within one year	25,000	25,000
Later than one year but within five years	25,000	50,000
Later than five years	—	—
	<u>50,000</u>	<u>75,000</u>

The obligation is classified as:

	20X2	20X1
	<i>CU</i>	<i>CU</i>
Current liability	21,461	19,884
Non-current liability	23,163	44,624
	<u>44,624</u>	<u>64,508</u>

Module 8—Notes to the Financial Statements

22. Commitments under operating leases

The Group rents several sales offices under operating leases. The leases are for an average period of three years, with fixed rentals over the same period.

	20X2	20X1
	CU	CU
Minimum lease payments under operating leases recognised as an expense during the year	26,100	26,100

At year-end, the Group has outstanding commitments under non-cancellable operating leases that fall due as follows:

	20X2	20X1
	CU	CU
Within one year	13,050	26,100
Later than one year but within five years	–	13,050
Later than five years	–	–
	<u>13,050</u>	<u>39,150</u>

23. Share capital

Balances as at 31 December 20X2 and 20X1 of CU30,000 comprise 30,000 ordinary shares with par value CU1.00 fully paid, issued and outstanding. An additional 70,000 shares are legally authorised but unissued.

24. Cash and cash equivalents

	20X2	20X1
	CU	CU
Cash on hand	28,700	22,075
Overdrafts	<u>(83,600)</u>	<u>(115,507)</u>
	<u>(54,900)</u>	<u>(93,432)</u>

Module 8—Notes to the Financial Statements

25. Contingent liabilities

In 20X2 a customer initiated proceedings against XYZ (Trading) Limited for a fire caused by a faulty candle. The customer asserts that its total losses are CU50,000 and has initiated litigation claiming this amount.

The Group’s legal counsel do not consider that the claim has merit, and the Company intends to contest it. No provision has been recognised in these financial statements as the Group’s management does not consider it probable that a loss will arise.

26. Events after the end of the reporting period

On 25 January 20X3 there was a flood in one of the candle storage rooms. The cost of refurbishment is expected to be CU36,000. The reimbursements from insurance are estimated to be CU16,000.

On 14 February 20X3 the directors voted to declare a dividend of CU1.00 per share (CU30,000 total) payable on 15 April 20X3 to registered shareholders on 31 March 20X3. Because the obligation arose in 20X3, a liability is not shown in the statement of financial position at 31 December 20X2.

27. Related party transactions

Transactions between the Company and its subsidiary, which is a related party, have been eliminated in consolidation.

The Group sells goods to its associate (see note 13), which is a related party, as follows:

	<i>Sales of goods</i>		<i>Amounts owed to the Group by the related party and included in trade receivables at year-end</i>	
	<i>20X2</i>	<i>20X1</i>	<i>20X2</i>	<i>20X1</i>
	<i>CU</i>	<i>CU</i>	<i>CU</i>	<i>CU</i>
Associate	10,000	8,000	800	400

The payments under the finance lease (see note 21) are personally guaranteed by a principal shareholder of the Company. No charge has been requested for this guarantee.

The total remuneration of directors and other members of key management in 20X2 (including salaries and benefits) was CU249,918 (20X1: CU208,260).

28. Approval of financial statements

These financial statements were approved by the board of directors and authorised for issue on 10 March 20X3.

Module 8—Notes to the Financial Statements

Disclosure of accounting policies

- 8.5 An entity shall disclose the following in the summary of significant accounting policies:
- (a) the **measurement** basis (or bases) used in preparing the financial statements; and
 - (b) the other accounting policies used that are relevant to an understanding of the financial statements.

Example – disclosure of accounting policies

- Ex 2 A Group that manufactures candles disclosed its accounting policies as follows:

XYZ Limited

Accounting policies and explanatory notes to the consolidated financial statements for the year ended 31 December 20X2

3. Accounting policies

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its wholly-owned subsidiary. All intragroup transactions, balances, income and expenses are eliminated.

Investments in associates

Investments in associates are accounted for at cost less any accumulated impairment losses.

Dividend income from investments in associates is recognised when the Group's right to receive payment has been established. It is included in other income.

Revenue recognition

Revenue from sales of goods is recognised when the goods are delivered and title has passed. Royalty revenue from licensing candle-making patents for use by others is recognised in accordance with the relevant licence agreements. Revenue is measured at the fair value of the consideration received or receivable, net of discounts and sales-related taxes collected on behalf of the government of A Land.

Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

Module 8—Notes to the Financial Statements

Income tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and their corresponding tax bases (known as temporary differences). Deferred tax liabilities are generally recognised for all temporary differences that will result in taxable amounts in determining taxable profit (tax loss) of future periods when the carrying amount of the asset or liability is recovered or settled (taxable temporary differences). Deferred tax assets are generally recognised for all temporary differences that will result in amounts that are deductible in determining taxable profit (tax loss) of future periods when the carrying amount of the asset or liability is recovered or settled (deductible temporary differences)—but only to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to reflect the current assessment of future taxable profits. Any adjustments are recognised in profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the taxable profit (tax loss) of the periods in which it expects the deferred tax asset to be realised or the deferred tax liability to be settled, on the basis of tax rates that have been enacted or substantively enacted by the reporting period.

Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is charged so as to allocate the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The following annual rates are used for the depreciation of property, plant and equipment:

Buildings	2%
Fixtures and equipment	10–30%

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of an asset, the depreciation of that asset is revised prospectively to reflect the new expectations.

Intangible assets

Intangible assets are purchased computer software that is stated at cost less accumulated depreciation and any accumulated impairment losses. It is amortised over its estimated life of five years using the straight-line method. If there is an indication that there has been a significant change in amortisation rate, useful life or residual value of an intangible asset, the amortisation is revised prospectively to reflect the new expectations.

Module 8—Notes to the Financial Statements

Impairment of assets

At each reporting date, property, plant and equipment, intangible assets, and investments in associates are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. If estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in profit or loss.

Similarly, at each reporting date, inventories are assessed for impairment by comparing the carrying amount of each item of inventory (or group of similar items) with its selling price less costs to complete and sell. If an item of inventory (or group of similar items) is impaired, its carrying amount is reduced to selling price less costs to complete and sell, and an impairment loss is recognised immediately in profit or loss.

If an impairment loss subsequently reverses, the carrying amount of the asset (or group of related assets) is increased to the revised estimate of its recoverable amount (selling price less costs to complete and sell, in the case of inventories), but not in excess of the amount that would have been determined had no impairment loss been recognised for the asset (group of related assets) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the leased asset to the Group. All other leases are classified as operating leases.

Rights to assets held under finance leases are recognised as assets of the Group at the fair value of the leased property (or, if lower, the present value of minimum lease payments) at the inception of the lease. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are deducted in measuring profit or loss. Assets held under finance leases are included in property, plant and equipment, and depreciated and assessed for impairment losses in the same way as owned assets.

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease.

Inventories

Inventories are stated at the lower of cost and selling price less costs to complete and sell. Cost is calculated using the first-in, first-out (FIFO) method.

Trade and other receivables

Most sales are made on the basis of normal credit terms and the receivables do not bear interest. Where credit is extended beyond normal credit terms, receivables are measured at amortised cost using the effective interest method. At the end of each reporting period, the carrying amounts of trade and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. If such evidence is identified, an impairment loss is recognised immediately in profit or loss.

Module 8—Notes to the Financial Statements

Trade payables

Trade payables are obligations on the basis of normal credit terms and do not bear interest. Trade payables denominated in a foreign currency are translated into CU using the exchange rate at the reporting date. Foreign exchange gains or losses are included in other income or other expenses.

Bank loans and overdrafts

Interest expense is recognised on the basis of the effective interest method and is included in finance costs.

Employee benefits—long-service payment

The liability for employee benefit obligations relates to government-mandated long-service payments. All full-time staff, excluding directors, are covered by the programme. A contribution equivalent to 5% of salary (as determined for the 12 months before the payment) is made at the end of each of five years of employment. The Group does not fund this obligation in advance.

The Group's cost and obligation to make long-service payments to employees are recognised during the employees' periods of service. The cost and obligation are measured using the projected unit credit method, assuming a 4% average annual salary increase, with employee turnover based on the Group's recent experience, discounted using the current market yield for high quality corporate bonds.

Provision for warranty obligations

All goods sold by the Group are warranted to be free of manufacturing defects for a period of one year. Goods are repaired or replaced at the Group's option. When revenue is recognised, a provision is made for the estimated cost of the warranty obligation.

Information about judgements

8.6 An entity shall disclose, in the summary of significant accounting policies or other notes, the judgements, apart from those involving estimations (see paragraph 8.7), that management has made in the process of applying the entity's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Notes

In some cases applying the group's accounting policies requires the use of judgements. The disclosure requirement in paragraph 8.6 explicitly excludes judgements involving estimations because these are the subject of the disclosure in paragraph 8.7.

In the process of applying the entity's accounting policies, management makes various judgements, apart from those involving estimations, that can significantly affect the amounts it recognises in the financial statements. For example, management makes judgements in determining:

- whether it is more likely than not that an outflow of resources embodying economic benefits will result from a present obligation that arises from past events

Module 8—Notes to the Financial Statements

(this judgement determines whether a liability is recognised);

- whether a lease transfers substantially all the risks and rewards incidental to the ownership of an asset (this judgement determines whether the lease is classified as a finance lease or an operating lease, ie from the lessee's perspective it determines whether at the start of the lease the entity recognises a leased asset and a corresponding lease obligation (finance lease) or it accounts for the lease as an executory contract (operating lease, ie there is no accounting for the lease at the start of the lease);
- when an entity transfers to the buyer the significant risks and rewards of ownership of the goods sold (this judgement together with other factors determines when to recognise revenue from the sale of goods);
- whether, in substance, particular sales of goods are financing arrangements and therefore do not give rise to revenue from the sale of goods (this judgement determines whether the entity accounts for the transaction as a sale of goods (ie derecognise the asset sold and recognise revenue from the sale of the good) or a financing transaction (ie recognise the liability to repay the lender);
- whether the substance of the relationship between the entity and a special purpose entity (SPE) indicates that the entity controls the SPE (this judgement determines whether the SPE is consolidated in the entity's consolidated financial statements); and
- whether the substance of the relationship between the entity and an investee indicates that the entity has significant influence over the investee (this judgement determines whether the investment is accounted for as an investment in an associate).

Disclosure of the most important judgements enables users of financial statements to understand better how the accounting policies are applied and to make comparisons between entities regarding the basis on which managements make these judgements.

Significantly different accounting can result from these judgements. Consider, for example, the effects of judgements around the binary initial recognition trigger for some items. To illustrate, consider the divide between provisions and contingent liabilities in respect of a present obligation. If management judges that settlement of the obligation is as likely to result in the outflow of cash as it is likely not to result in the outflow of cash (ie the two possible outcomes are equally likely), then the entity does not recognise the liability in its statement of financial position. However, if the likelihood of the outflow increased by the smallest amount (eg the likelihood of an outflow in settlement is judged to be 50.1%), a liability (provision) would be recognised at the best estimate of the amount required to settle the obligation. Another example is the divide between asset and contingent asset. When an inflow of economic benefits is probable (ie more likely than not), a contingent asset is disclosed and an asset is recognised when the flow of economic benefits to the entity is virtually certain (see paragraph 21.13). Judgements also apply in respect of the concept of probability for the recognition of asset and liability. If future economic benefits are expected to flow to the entity, an asset is recognised and if settlement is expected to result in an outflow from the entity embodying economic benefits, a liability is recognised (see paragraph 2.15(a) and 2.15 (b)). The probability refers to the degree of uncertainty that the future economic benefits associated with the item will flow to or from the entity (see paragraph 2.29).

Because the *IFRS for SMEs* Standard specifies different measurements for different classifications of items, the classification of an item can have a significant effect on the accounting for that item. Consider, for example, the measurement after initial

Module 8—Notes to the Financial Statements

recognition of a building (whose fair value can be determined reliably on an ongoing basis) that management found difficult to classify (such a scenario might arise for a property company that both leases out, develops and sells property):

- If the building is an investment property it would be measured at its fair value.
- If the building is inventory it would be measured at the lower of its cost and its estimated selling price less costs to complete and sell.
- If the building is property, plant and equipment it would be measured at its cost less accumulated depreciation and accumulated impairment (if it is impaired) under the cost model or at fair value less any subsequent accumulated depreciation and accumulated impairment losses under the revaluation model. Consider too that the carrying amount of impaired property, plant and equipment is the greater of its value in use (an entity-specific measure determined by discounting expected future cash flows) and its fair value less costs to sell.

When the financial effects of a difficult classification judgement are significant, it is easy to understand why information about such judgements is useful.

The Significant Estimates and Other Judgements section of each module of the IFRS Foundation supporting material for the *IFRS for SMEs* Standard sets out information about significant judgements that sometimes needs to be made in the process of applying an entity's accounting policies to the transactions and events that are the subject of that module.

Example – information about significant judgements

Ex 3 The notes to the financial statements of an entity for the year ended 31 December 20X3 contain the following information about the most significant judgements made in the process of applying the entity's accounting policies:

Note 4 Judgements and estimates that have the most significant effects

4.1 Judgements in applying accounting policies

Special purpose entities

In 20X3 the entity sponsored the formation of a special purpose entity (SPE). The SPE allows three (and only those three) independent third parties, through ownership of the SPE's shares, to invest in a diversified range of listed financial assets purchased by the SPE in the open market. The entity receives service and commission fees for creating the SPE and for its investment manager services.

The SPE is consolidated if the entity has the power to govern the financial and operating policies of the SPE. It is difficult to determine whether the entity exerts control over the SPE. Judgements about risks and rewards as well as the entity's ability to make operational decisions for the SPE were therefore made. Those judgements include assessing whether:

- (a) the activities of the SPE are being conducted on behalf of the entity according to its specific business needs;
- (b) the entity has the ultimate decision-making powers over the activities of the SPE even if day-to-day decisions have been delegated;
- (c) the entity has rights to obtain the majority of the benefits of the SPE and therefore may be exposed to risks incidental to the activities of the SPE; or
- (d) the entity retains the majority of the residual or ownership risks related to the SPE or its assets.

Module 8—Notes to the Financial Statements

On the basis of its assessment of the facts and circumstances (including the four indicators above) management decided that the risks and rewards of the assets held by the SPE reside directly with the three investors. Accordingly, the entity did not consolidate the SPE in these consolidated financial statements.

Deconsolidation

The entity owns all of the equity of an entity (entity Y). From early January 20X3 the government of the jurisdiction in which the entity operates intervened in the operating and financial policies of entity Y to the extent that management is unable to conclude that the entity controlled entity Y during 20X3. The political environment in the jurisdiction is volatile and developments could affect the accounting treatment and carrying amount of the investment in entity Y. On the basis of its assessment of the facts and circumstances management judged that it should not consolidate entity Y in the entity's consolidated financial statements for the year ended 31 December 20X3.

Lawsuit

The entity is defending a lawsuit brought against it by a group of people who are collectively seeking compensation for damages to their health as a result of contamination to the nearby land that they believe to be caused by waste from the entity's production process. It is doubtful whether the entity is the source of the contamination since many entities operate in the same area producing similar waste and the source of the leak is unclear. Management denies any wrongdoing and is vigorously defending the case because the entity has taken precautions to avoid such leaks. However, at this time management cannot be certain that the entity's factory has not caused the leak and the true offender will become known only after extensive testing. The entity's legal counsel expects a court ruling in about two years. On the basis of its assessment of the available evidence management judged that it is probable that the entity will successfully defend the court case and accordingly it did not recognise a liability in the entity's consolidated statement of financial position at 31 December 20X3. Information about the existence of the possible obligation is disclosed in note 25.

Lease classification

A lease is a finance lease if it transfers substantially all the risks and rewards incidental to ownership. All other leases are operating leases. On 1 July 20X3 the entity entered into an agreement (as lessee) with an independent third party for the use of an executive jet. Management determines that judgement is required to assess whether the lease transfers substantially all the risks and rewards incidental to ownership. After considering all of the fact and circumstances management judges the lease to be an operating lease and therefore the entity accounts for the lease as an executory contract. Had the lease been judged to be a finance lease, the entity would have recognised the leased asset and a corresponding lease liability in its statement of financial position and it would have apportioned lease payments between finance costs and the repayment of the liability. It would also have depreciated the leased asset over its useful life. The entity's commitment to make future non-cancellable lease payments for the use of the jet is set out in note 40.

Module 8—Notes to the Financial Statements

Information about key sources of estimation uncertainty

- 8.7 An entity shall disclose in the notes information about the key assumptions concerning the future, and other key sources of estimation uncertainty at the **reporting date**, that have a significant risk of causing a **material** adjustment to the **carrying amounts** of **assets** and **liabilities** within the next financial year. In respect of those assets and liabilities, the notes shall include details of:
- (a) their nature; and
 - (b) their carrying amount as at the end of the **reporting period**.

Notes

Determining the carrying amounts of some assets and liabilities requires estimation of the effects of uncertain future events on those assets and liabilities at the end of the reporting period. For example, in the absence of recent prices observed in an active market used to measure the following assets and liabilities, future-oriented estimates are necessary to measure the recoverable amount of classes of property, plant and equipment, the effect of technological obsolescence of inventories, provisions subject to the future outcome of litigation in progress, and long-term employee benefit liabilities such as pension obligations. These estimates involve assumptions about items such as the risk adjustment to cash flows or discount rates used, future changes in salaries and future changes in prices affecting other costs. No matter how diligently an entity estimates the carrying amounts of assets and liabilities subject to significant estimation uncertainty at the end of the reporting period, the reporting of point estimates in the statement of financial position cannot provide information about the estimation uncertainties involved in measuring those assets and liabilities and the implications of those uncertainties for the period's profit or loss.

Disclosure of information about assumptions and other major sources of estimation uncertainty at the end of the reporting period enhances the relevance, reliability and understandability of the information reported in financial statements.

These assumptions and other sources of estimation uncertainty have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. Therefore, in most cases disclosure applying paragraph 8.7 would be made in respect of relatively few assets or liabilities (or classes of them).

The disclosure does not apply to assets and liabilities measured at fair value using prices observed in an active market. An active market is a market in which transactions for the asset and liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. When assets and liabilities are measured at fair value using prices observed in an active market, future changes in carrying amounts would not result from using estimates to measure the assets and liabilities at the end of the reporting period. Using prices observed in an active market to measure assets or liabilities obviates the need for estimates at the end of the reporting period. The market prices reflect the fair values at the end of the reporting period, even though future market prices could be significantly different. In other words, such fair values might change materially within the next financial year but these changes would not arise from assumptions or other sources of estimation uncertainty at the end of the reporting period. The objective of fair value measurement is to reflect fair value at the measurement date, not to predict a future value.

Module 8—Notes to the Financial Statements

Beyond specifying that, in respect of those assets and liabilities, the notes shall include details of their nature and their carrying amount as at the end of the reporting period, the *IFRS for SMEs* Standard does not prescribe the particular form or detail of the disclosures. Circumstances differ from entity to entity, and the nature of estimation uncertainty at the end of the reporting period has many facets. Paragraph 8.7 limits the scope of the disclosures to items that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The longer the future period to which the disclosures relate, the greater the range of items that would qualify for disclosure, and the information that could be disclosed about particular assets or liabilities would be less specific. A period longer than the next financial year might obscure the most relevant information with other disclosures.

The Significant Estimates and Other Judgements section of each module of the IFRS Foundation supporting material for the *IFRS for SMEs* Standard sets out information about the key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date, that may have a significant risk of causing a material adjustment within the next financial year to the carrying amounts of the assets and liabilities that are the subject of that module.

Example – information about key sources of estimation uncertainty

Information about the key sources of estimation uncertainty could be disclosed as follows:

Note 4 Judgements and estimates that have the most significant effects

...

4.2 Key sources of estimation uncertainty

Fair value of derivatives transacted in over-the-counter markets

Financial assets and financial liabilities that are not basic financial instruments (see note 12) are carried at their fair value, with changes in fair value recorded in profit or loss. When no active market exists, or when quoted prices are not otherwise available, judgement is required in determining fair value.

In these circumstances, fair value is determined using a variety of valuation techniques including present value techniques, other models based on observable input parameters, and other models where some of the input parameters are unobservable. Valuation models are used by the entity to value derivatives transacted in over-the-counter markets, including credit derivatives and unlisted securities with embedded derivatives. All valuation models are validated before they are used, and periodically reviewed thereafter, by independent qualified financial instrument valuation experts. Wherever possible, valuations derived from models are compared with quoted prices of similar financial instruments, and with actual values when realised, in order to further validate and calibrate our models.

The carrying amount of derivatives transacted in over-the-counter markets on the 31 December 20X2 is CU2,000,000 (31 December 20X1: CU1,500,000). Information about the valuation techniques and the assumptions used is in note 12. Management has estimated the effect that a change in assumptions to reasonably possible alternatives could have on fair values where model inputs are not market observable. For derivatives transacted in over-the-counter markets, we estimate that fair value could lie in a range from CU200,000 lower to CU200,000 higher than the fair values of CU2,000,000 (see note 12) recognised in the financial statements.

Module 8—Notes to the Financial Statements

COMPARISON WITH FULL IFRS STANDARDS

When presenting information in the notes to the financial statements for periods beginning on 1 January 2017, the main differences between the requirements of full IFRS Standards (see IAS 1 *Presentation of Financial Statements*) and the *IFRS for SMEs* Standard (see Section 8 *Notes to the Financial Statement*) are:

- The *IFRS for SMEs* Standard is drafted in simpler language than that used in full IFRS Standards.
- Full IFRS Standards state that the disclosures in paragraph 8.7 are not required for assets and liabilities measured at fair value based on a quoted price in an active market for an identical asset or liability. The *IFRS for SMEs* Standard does not contain this exemption.
- Full IFRS Standards contain more requirements on what disclosures should be provided by entities to satisfy paragraph 8.7. The *IFRS for SMEs* Standard doesn't contain this level of detail.
- The disclosure requirements in the *IFRS for SMEs* Standard are substantially reduced when compared with the disclosure requirements in full IFRS Standards. The reasons for the reductions are of four principal types:
 - (a) some disclosures are not included because they relate to topics covered in full IFRS Standards that are omitted from the *IFRS for SMEs* Standard;
 - (b) some disclosures are not included because they relate to recognition and measurement principles in full IFRSs that have been replaced by simplifications in the *IFRS for SMEs* Standard;
 - (c) some disclosures are not included because they relate to options in full IFRS Standards that are not included in the *IFRS for SMEs* Standard; and
 - (d) some disclosures are not included on the basis of users' needs or cost-benefit considerations.

Module 8—Notes to the Financial Statements

TEST YOUR KNOWLEDGE

Test your knowledge of the requirements for presenting information in the notes to the financial statements applying the *IFRS for SMEs* Standard by answering the questions provided. Once you have completed the test, check your answers against those set out beneath it.

Mark the box next to the most correct statement.

Question 1

Notes to the financial statements:

- (a) contain only information required to be disclosed by the *IFRS for SMEs* Standard that was not presented in the statement of financial position, statement of comprehensive income, statement of changes in equity or cash flow statement.
- (b) contain information required by Section 8 *Notes to the Financial Statements* without reference to the other sections of the *IFRS for SMEs* Standard.
- (c) contain the information required to be disclosed by the *IFRS for SMEs* Standard that was not presented in the statement of financial position, statement of comprehensive income, statement of changes in equity or statement of cash flows and additional information relevant to an understanding of the financial statements.

Question 2

The cross-reference between each line item in the financial statements and any related information disclosed in the notes to the financial statements:

- (a) is voluntary.
- (b) is mandatory.
- (c) depends on the industry.

Question 3

The presentation of the notes to the financial statements in a systematic manner:

- (a) is voluntary.
- (b) is mandatory.
- (c) is mandatory, as far as is practicable.

Module 8—Notes to the Financial Statements

Question 4

An entity normally presents the notes in the following order:

- (a) First, a statement that the financial statements have been prepared in compliance with the *IFRS for SMEs* Standard.
Second, a summary of significant accounting policies applied.
Third, supporting information for items presented in the financial statements, in the sequence in which each statement and each line item is presented.
Last, any other disclosures.
- (b) First, supporting information for items presented in the financial statements, in the sequence in which each statement and each line item is presented.
Second, a statement that the financial statements have been prepared in compliance with the *IFRS for SMEs* Standard.
Third, a summary of significant accounting policies applied.
Last, any other disclosures.
- (c) First, supporting information for items presented in the financial statements, in the sequence in which each statement and each line item is presented.
Second, a summary of significant accounting policies applied.
Third, a statement that the financial statements have been prepared in compliance with the *IFRS for SMEs* Standard.
Last, any other disclosures.

Question 5

An entity shall disclose in the summary of significant accounting policies:

- (a) the measurement basis (or bases) used in preparing the financial statements.
- (b) all the measurement bases specified in the *IFRS for SMEs* Standard irrespective of whether they were used by the entity in preparing its financial statements.
- (c) the measurement basis (or bases) used in preparing the financial statements and the other accounting policies used that are relevant to an understanding of the financial statements.
- (d) all of the measurement bases and the accounting policy choices available to the entity (ie specified in the *IFRS for SMEs*) Standard irrespective of whether they were used by the entity in preparing its financial statements.

Question 6

Disclosure of information about key sources of estimation uncertainty:

- (a) is voluntary.
- (b) is not required.
- (c) is mandatory.

Module 8—Notes to the Financial Statements

Question 7

Disclosure of information about judgements, apart from those involving estimations, that management has made in the process of applying the entity's accounting policies and that have the most significant effect on the amounts recognised in the financial statements:

- (a) is voluntary.
- (b) is not required
- (c) is mandatory.

Question 8

Which of the following are included in the notes to the financial statements?

- (a) the statement of financial position, statement of comprehensive income, income statement (if presented), combined statement of income and retained earnings (if presented), statement of changes in equity and statement of cash flows.
- (b) information in addition to that presented in the statement of financial position, statement of comprehensive income, income statement (if presented), combined statement of income and retained earnings (if presented), statement of changes in equity and statement of cash flows; narrative descriptions or disaggregations of items presented in those statements and information about items that do not qualify for recognition in those statements.
- (c) only information about items that do not qualify for recognition in the statement of financial position, statement of comprehensive income, income statement (if presented), combined statement of income and retained earnings (if presented), statement of changes in equity and statement of cash flows.

Module 8—Notes to the Financial Statements

Answers

- Q1 (c) see paragraph 8.2
- Q2 (b) see paragraph 8.3
- Q3 (c) see paragraph 8.3
- Q4 (a) see paragraph 8.4
- Q5 (c) see paragraph 8.5
- Q6 (c) see paragraph 8.6

Module 8—Notes to the Financial Statements

APPLY YOUR KNOWLEDGE

Apply your knowledge of the requirements for presenting information in the notes to the financial statements applying the *IFRS for SMEs* Standard by completing the case study provided.

Once you have completed the case study, check your answers against those set out beneath it.

Case study

The group consists of the Company (XZY Limited) and its wholly-owned subsidiary XYZ (Trading) Limited. Their principal activities are the manufacture and sale of candles. The consolidated annual financial statements of the group for the year ended 31 December 20X2 have been prepared applying the *IFRS for SMEs* Standard issued by the International Accounting Standards Board.

You are required to answer each question that has been annotated to the consolidated annual financial statements of the group for the year ended 31 December 20X2.

Note: To answer this case study you need an overall understanding of the presentation of financial statements applying the *IFRS for SMEs* Standard.

Module 8—Notes to the Financial Statements

XYZ Limited

Consolidated statement of comprehensive income and retained earnings for the year ended 31 December 20X2^(a)

	Notes	20X2	20X1
(b), (c)		CU	CU
Revenue	5	6,863,545	5,808,653
Other income	6	88,850	25,000
Changes in inventories of finished goods and work in progress ^(d)		3,310	(1,360)
Raw material and consumables used		(4,786,699)	(4,092,185)
Employee salaries and benefits		(936,142)	(879,900)
Depreciation and amortisation expense		(272,060)	(221,247)
Impairment of property, plant and equipment		(30,000)	—
Other expenses		(249,482)	(145,102)
Finance costs	7	(26,366)	(36,712)
Profit before tax ^(e)	8	654,956	457,147
Income tax expense	9	(270,250)	(189,559)
Profit for the year		384,706	267,588
Retained earnings at start of year		2,171,353	2,003,765
Dividends		(150,000)	(100,000)
Retained earnings at end of year		2,406,059	2,171,353

^(a) Could the group present two statements (ie a consolidated statement of comprehensive income and a consolidated statement of changes in equity) instead of presenting a consolidated statement of income and retained earnings?

^(b) How would the presentation of the consolidated statement of income and retained earnings change if the group had a discontinued operation in the year ended 31 December 20X2?

^(c) How would the presentation of the consolidated statement of income and retained earnings change if the group had a partly-owned subsidiary?

^(d) Could the group choose to present an analysis of expenses by function instead of an analysis of expenses by nature?

^(e) Is the group required to disclose this line item 'Profit before tax'?

Module 8—Notes to the Financial Statements

XYZ Limited

Consolidated statement of financial position^(f) at 31 December 20X2^(g)

	Notes	20X2	20X1	20X0 ^(h)
ASSETS		CU	CU	CU
Current assets^(i, j)				
Cash		28,700	22,075	18,478
Trade and other receivables	10	585,548	573,862	521,234
Inventories	11	57,381	47,920	45,050
		<u>671,629</u>	<u>643,857</u>	<u>584,762</u>
Non-current assets				
Investment in associate	12	107,500	107,500	107,500
Property, plant and equipment	13	2,549,945	2,401,455	2,186,002
Intangible assets	14	850	2,550	4,250
Deferred tax asset	15	4,309	2,912	2,155
		<u>2,662,604</u>	<u>2,514,417</u>	<u>2,299,907</u>
Total assets		<u>3,334,233</u>	<u>3,158,274</u>	<u>2,884,669</u>

^(f) Does the IFRS for SMEs Standard prohibit use of the words 'balance sheet' instead of the words 'statement of financial position'?

^(g) Does the IFRS for SMEs Standard prohibit presentation of the statement of financial position before the statement of income and retained earnings?

^(h) Does the IFRS for SMEs Standard require a statement of financial position at the beginning of the earliest comparative period?

⁽ⁱ⁾ Instead of presenting its current assets separately from its non-current assets, and current liabilities separately from its non-current liabilities, could the group choose to present its assets and liabilities in order of their liquidity?

^(j) When an entity presents its assets and liabilities in order of their liquidity, is that order ascending or descending?

Module 8—Notes to the Financial Statements

XYZ Limited

Accounting policies and explanatory notes to the financial statements for the year ended 31 December 20X2

1. General information

XYZ (Holdings) Limited (the Company) is a limited company incorporated in A Land. The address of its registered office and principal place of business is _____. The group consists of the Company and its wholly-owned subsidiary XYZ (Trading) Limited. Their principal activities are the manufacture and sale of candles.

2. Basis of preparation and accounting policies

These consolidated financial statements have been prepared in accordance with the *IFRS for SMEs* Standard issued by the International Accounting Standards Board. They are presented in the currency units (CU) of A Land.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its wholly-owned subsidiary. All intragroup transactions, balances, income and expenses are eliminated.

Investments in associates⁽ⁿ⁾

Investments in associates are accounted for at cost less any accumulated impairment losses.

Dividend income from investments in associates is recognised when the Group's right to receive payment has been established. It is included in other income.

Revenue recognition

Revenue from sales of goods is recognised when the goods are delivered and title has passed. Royalty revenue from licensing candle-making patents for use by others is recognised in accordance with the relevant licence agreements. Revenue is measured at the fair value of the consideration received or receivable, net of discounts and sales-related taxes collected on behalf of the government of A Land.

Borrowing costs^(o)

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

⁽ⁿ⁾ What other measurement bases, if any, could the group adopt as its accounting policy for investments in associates?

^(o) Could the group change its accounting policy for borrowing costs so that borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset form part of the cost of that asset (ie can the group account for borrowing costs applying IAS 23 *Borrowing Costs* of full IFRS Standards)?

Module 8—Notes to the Financial Statements

Income tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and their corresponding tax bases (known as temporary differences). Deferred tax liabilities are generally recognised for all temporary differences that will result in taxable amounts in determining taxable profit (tax loss) of future periods when the carrying amount of the asset or liability is recovered or settled (taxable temporary differences). Deferred tax assets are generally recognised for all temporary differences that will result in amounts that are deductible in determining taxable profit (tax loss) of future periods when the carrying amount of the asset or liability is recovered or settled (deductible temporary differences) – but only to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to reflect the current assessment of future taxable profits. Any adjustments are recognised in profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the taxable profit (tax loss) of the periods in which it expects the deferred tax asset to be realised or the deferred tax liability to be settled, on the basis of tax rates that have been enacted or substantively enacted by the end of the reporting period.

Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is charged so as to allocate the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The following annual rates are used for the depreciation of property, plant and equipment:

Buildings	2%
Fixtures and equipment	10–30%

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of an asset, the depreciation of that asset is revised prospectively to reflect the new expectations.

Intangible assets^(p)

Intangible assets are purchased computer software that is stated at cost less accumulated depreciation and any accumulated impairment losses. It is amortised over its estimated life of five years using the straight-line method. If there is an indication that there has been a significant change in amortisation rate, useful life or residual value of an intangible asset, the amortisation is revised prospectively to reflect the new expectations.

Impairment of assets

At each reporting date, property, plant and equipment, intangible assets, and investments in associates are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. If estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in profit or loss.

Similarly, at each reporting date, inventories are assessed for impairment by comparing the carrying amount of each item of inventory (or group of similar items) with its selling price less costs to complete and

^(p) If the group had purchased a trade mark the useful life of which management considers to be indefinite, would the group account for the trade mark at cost less accumulated depreciation and any accumulated impairment losses?

Module 8—Notes to the Financial Statements

sell. If an item of inventory (or group of similar items) is impaired, its carrying amount is reduced to selling price less costs to complete and sell, and an impairment loss is recognised immediately in profit or loss.

If an impairment loss subsequently reverses, the carrying amount of the asset (or group of related assets) is increased to the revised estimate of its recoverable amount (selling price less costs to complete and sell, in the case of inventories), but not in excess of the amount that would have been determined had no impairment loss been recognised for the asset (group of related assets) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Leases^(q)

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the leased asset to the Group. All other leases are classified as operating leases.

Rights to assets held under finance leases are recognised as assets of the Group at the fair value of the leased property (or, if lower, the present value of minimum lease payments) at the inception of the lease. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are deducted in measuring profit or loss. Assets held under finance leases are included in property, plant and equipment, and depreciated and assessed for impairment losses in the same way as owned assets.

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease.

Inventories

Inventories are stated at the lower of cost and selling price less costs to complete and sell. Cost is calculated using the first-in, first-out (FIFO) method.

Trade and other receivables

Most sales are made on the basis of normal credit terms, and the receivables do not bear interest. Where credit is extended beyond normal credit terms, receivables are measured at amortised cost using the effective interest method. At the end of each reporting period, the carrying amounts of trade and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. If so, an impairment loss is recognised immediately in profit or loss.

Trade payables

Trade payables are obligations on the basis of normal credit terms and do not bear interest. Trade payables denominated in a foreign currency are translated into CU using the exchange rate at the reporting date. Foreign exchange gains or losses are included in other income or other expenses.

Bank loans and overdrafts

Interest expense is recognised on the basis of the effective interest method and is included in finance costs.

Employee benefits—long-service payment

The liability for employee benefit obligations relates to government-mandated long-service payments. All full-time staff, excluding directors, are covered by the programme. A payment of 5% of salary (as determined for the 12 months before the payment) is made at the end of each of five years of employment. The payment is made as part of the December payroll in the fifth year. The Group does not fund this obligation in advance.

^(q) What additional information, if any, would the group disclose in its 20X2 financial statements if management had found it difficult to classify (ie as an operating lease or a finance lease) a significant non-cancellable lease that the group entered into (as a lessee) in 20X2?

Module 8—Notes to the Financial Statements

The Group's cost and obligation to make long-service payments to employees are recognised during the employees' periods of service. The cost and obligation are measured using the projected unit credit method^(f), assuming a 4% average annual salary increase, with employee turnover based on the Group's recent experience, discounted using the current market yield for high quality corporate bonds.

Provision for warranty obligations

All goods sold by the Group are warranted to be free of manufacturing defects for a period of one year. Goods are repaired or replaced at the Group's option. When revenue is recognised, a provision is made for the estimated cost of the warranty obligation.

3. Key sources of estimation uncertainty

Long-service payments

In determining the liability for long-service payments (explained in notes 2 and 19), management must make an estimate of salary increases over the following five years, the discount rate for the next five years to use in the present value calculation, and the number of employees expected to leave before they receive the benefits.

4. Restriction on payment of dividend

Under the terms of the bank loan and bank overdraft agreements, dividends cannot be paid to the extent that they would reduce the balance of retained earnings below the sum of the outstanding balance of the bank loan and the bank overdraft.

5. Revenue

	20X2	20X1
	CU	CU
Sale of goods	6,743,545	5,688,653
Royalties – licensing of candle-making patents	120,000	120,000
	<u>6,863,545</u>	<u>5,808,653</u>

6. Other income

Other income includes dividends received from an associate of CU25,000 in both 20X1 and 20X2 and a gain on disposal of property, plant and equipment^(s) of CU63,850 in 20X2.

^(f) In what circumstances could the group not use the projected unit credit method to measure its defined benefit obligation?

^(s) Could the group present this amount as a separate line item in the consolidated statement of income and retained earnings described as 'Extraordinary item'?

Module 8—Notes to the Financial Statements

7. Finance costs

	20X2	20X1
	CU	CU
Interest on bank loan and overdraft	(21,250)	(30,135)
Interest on finance leases	(5,116)	(6,577)
	<u>(26,366)</u>	<u>(36,712)</u>

8. Profit before tax

The following items have been recognised as expenses (income) in determining profit before tax:

	20X2	20X1
	CU	CU
Cost of inventories recognised as expense	5,178,530	4,422,575
Research and development cost (included in other expenses)	31,620	22,778
Foreign exchange loss on trade payables (included in other expenses)	1,000	–
Warranty expense (included in raw materials and consumables used)	5,260	7,340

9. Income tax expense

	20X2	20X1
	CU	CU
Current tax	271,647	190,316
Deferred tax (note 15)	(1,397)	(757)
	<u>270,250</u>	<u>189,559</u>

Income tax is calculated at 40% (20X1: 40%) of the estimated assessable profit for the year.

Income tax expense for the year CU270,250 in 20X2 (CU189,559 in 20X1) differs from the amount that would result from applying the tax rate of 40% per cent (both 20X2 and 20X1) to profit before tax because, under the tax laws of A Land, some employee remuneration expenses (CU20,670 in 20X2 and CU16,750 in 20X1) that are recognised in measuring profit before tax are not tax deductible.

Module 8—Notes to the Financial Statements

10. Trade and other receivables^(t)

	20X2	20X1
	CU	CU
Trade debtors	528,788	528,384
Prepayments	56,760	45,478
	<u>585,548</u>	<u>573,862</u>

11. Inventories^(u)

	20X2	20X1
	CU	CU
Raw materials	42,601	36,450
Work in progress	1,140	900
Finished goods	13,640	10,570
	<u>57,381</u>	<u>47,920</u>

12. Investment in associate

The Group owns 35% of an associate whose shares are not publicly traded.

	20X2	20X1
	CU	CU
Cost of investment in associate	107,500	107,500
Dividend received from associate (included in other income)	25,000	25,000

^(t) Instead of presenting trade debtors and prepayments in the notes could the group have presented them as separate line items in the consolidated statement of financial position?

^(u) Instead of presenting raw materials, work in progress and finished goods in the notes could the group present them as separate line items in the consolidated statement of financial position?

Module 8—Notes to the Financial Statements

13. Property, plant and equipment^(v)

	<i>Land and buildings</i>	<i>Fixtures and equipment</i>	<i>Total</i>
	<i>CU</i>	<i>CU</i>	<i>CU</i>
Cost			
1 January 20X2	1,960,000	1,102,045	3,062,045
Additions	–	485,000	485,000
Disposals	–	(241,000)	(241,000)
31 December 20X2	<u>1,960,000</u>	<u>1,346,045</u>	<u>3,306,045</u>
Accumulated depreciation and impairment			
1 January 20X2	390,000	270,590	660,590
Annual depreciation	30,000	240,360	270,360
Impairment	–	30,000	30,000
Less accumulated depreciation on assets disposed of	–	(204,850)	(204,850)
31 December 20X2	<u>420,000</u>	<u>336,100</u>	<u>756,100</u>
Carrying amount			
31 December 20X2	<u>1,540,000</u>	<u>1,009,945</u>	<u>2,549,945</u>

During 20X2 the group noticed a significant decline in the efficiency of a major piece of equipment and so carried out a review of its recoverable amount. The review led to the recognition of an impairment loss of CU30,000.

The carrying amount of the group's fixtures and equipment includes an amount of CU40,000 (20X1: CU60,000) in respect of assets held under finance leases.

On 10 December 20X2 the directors resolved to dispose of a machine. The machine's carrying amount of CU1,472 is included in fixtures and equipment at 31 December 20X2, and trade payables includes the group's remaining obligation of CU1,550 on the acquisition of this machine. Because the proceeds on disposal are expected to exceed the net carrying amount of the asset and related liability, no impairment loss has been recognised.

^(v) Is it acceptable that the group has not provided comparative amounts for the reconciliation of the carrying amount at the beginning and end of the reporting period for property, plant and equipment?

Module 8—Notes to the Financial Statements

14. Intangible assets^(w)

Software:	
Software:	CU
Cost	
1 January 20X2	8,500
Additions	–
Disposals	–
31 December 20X2	<u>8,500</u>
Accumulated depreciation and impairment	
1 January 20X2	5,950
Annual amortisation (included in included in depreciation and amortisation expense ¹)	<u>1,700</u>
31 December 20X2	<u>7,650</u>
Carrying amount	
31 December 20X2	<u>850</u>

^(w) Is it acceptable that the group has not provided comparative amounts for the reconciliation of the carrying amount at the beginning and end of the reporting period for intangible assets?

Module 8—Notes to the Financial Statements

15. Deferred tax

Differences between amounts recognised in the income statement and amounts reported to tax authorities in connection with investments in the subsidiary and associate are insignificant.

The deferred tax assets are the tax effects of expected future income tax benefits relating to:

- (a) the long-service benefit (note 19), which will not be tax deductible until the benefit is actually paid, but which has already been recognised as an expense in measuring the group's profit for the year.
- (b) the foreign exchange loss on trade payables, which will not be tax deductible until the payables are settled, but which has already been recognised as an expense in measuring the group's profit for the year.

Management considers it probable that taxable profits will be available against which the future income tax deductions can be utilised.

The following are the deferred tax liabilities (assets) recognised by the group:

	<i>Software</i>	<i>Foreign exchange loss</i>	<i>Long- service benefit</i>	<i>Total</i>
	<i>CU</i>	<i>CU</i>	<i>CU</i>	<i>CU</i>
1 January 20X1	1,700	–	(3,855)	(2,155)
Charge (credit) to profit or loss for the year	(680)	–	(77)	(757)
1 January 20X2	1,020	–	(3,932)	(2,912)
Charge (credit) to profit or loss for the year	(680)	(400)	(317)	(1,397)
31 December 20X2	<u>340</u>	<u>(400)</u>	<u>(4,249)</u>	<u>(4,309)</u>

The deferred tax assets for the foreign exchange loss and long-service benefits and the deferred tax liability for software relate to income tax in the same jurisdiction, and the law allows net settlement. Therefore, they have been offset in the statement of financial position as follows:

	<i>20X2</i>	<i>20X1</i>
	<i>CU</i>	<i>CU</i>
Deferred tax liability ^(x)	340	1,020
Deferred tax asset	(4,649)	(3,932)
	<u>(4,309)^(y)</u>	<u>(2,912)</u>

^(x) Is it permissible to offset deferred tax liabilities and deferred tax assets and to present the net deferred tax asset in the consolidated statement of financial position?

^(y) If a material amount of the deferred tax asset is expected to be realised in 20X3, can the group present the amount to be received in 20X3 as a current asset in its consolidated statement of financial position at 31 December 20X2?

Module 8—Notes to the Financial Statements

16. Bank overdraft and loan

	20X2	20X1
	CU	CU
Bank overdraft	83,600	115,507
Bank loan—fully repayable in 20X4, prepayable without penalty	50,000	150,000
	<u>133,600^(z)</u>	<u>265,507</u>

The bank overdraft and loan are secured by a floating lien over land and buildings owned by the group with a carrying amount of CU266,000 at 31 December 20X2 (CU412,000 at 31 December 20X1).

Interest is payable on the bank overdraft at 200 points above the London Interbank Borrowing Rate (LIBOR). Interest is payable on the seven-year bank loan at a fixed rate of 5% of the principal amount.

17. Trade payables

Trade payables at 31 December 20X2 include CU42,600 denominated in foreign currencies (nil at 31 December 20X1).

18. Provision for warranty obligations^(aa)

Changes in the provision for warranty obligations during 20X2 were:^(bb)

	20X2
	CU
1 January 20X2	5,040
Additional accrual during the year	5,260
Cost of warranty repairs and replacement during the year	<u>(6,100)</u>
31 December 20X2	<u>4,200</u>

The obligation is classified as a current liability because the warranty is limited to 12 months.

^(z) Instead of presenting its cash (current asset) separately from its bank overdraft (current liability), could the group choose to present the net amount (eg 20X2: CU54,900) as a current liability 'cash and cash equivalents' in its consolidated statement of financial position (as presented in the consolidated statement of cash flows)?

^(aa) Is it acceptable that the group has not provided comparative amounts for the reconciliation of the carrying amount at the beginning and end of the reporting period for provisions?

^(bb) If the warranty was for a longer period (eg three years) what additional line item, if any, would you expect to see in the disclosure about the changes in the provision for the period?

Module 8—Notes to the Financial Statements

19. Employee benefit obligation—long-service payments^(cc)

The group's employee benefit obligation for long-service payments under a government-mandated plan is based on a comprehensive actuarial valuation as of 31 December 20X2, as follows:

	<i>20X2</i>	
	<i>CU</i>	
Obligation at 1 January 20X2	9,830	
Additional accrual during the year	7,033	
Benefit payments made in year	<u>(6,240)</u>	
Obligation at 31 December 20X2	<u>10,623</u>	
The obligation is classified as:		
	<i>20X2</i>	<i>20X1</i>
	<i>CU</i>	<i>CU</i>
Current liability	4,944	4,754
Non-current liability	<u>5,679</u>	<u>5,076</u>
Total	<u>10,623</u>	<u>9,830</u>

^(cc) Is it acceptable that the group has not provided comparative amounts for the reconciliation of the carrying amount at the beginning and end of the reporting period for the employee benefit obligation?

Module 8—Notes to the Financial Statements

20. Obligations under finance leases

The group holds a specialised machine with an estimated useful life of five years under a five-year finance lease. The future minimum lease payments are as follows:

	20X2	20X1
	<i>CU</i>	<i>CU</i>
Within one year	25,000	25,000
Later than one year but within five years	25,000	50,000
Later than five years	—	—
	<hr/>	<hr/>
	50,000	75,000
	<hr/>	<hr/>

The obligation is classified as:

	20X2	20X1
	<i>CU</i>	<i>CU</i>
Current liability	21,461	19,884
Non-current liability	23,163	44,624
	<hr/>	<hr/>
	44,624	64,508
	<hr/>	<hr/>

Module 8—Notes to the Financial Statements

21. Commitments under operating leases

The group rents several sales offices under operating leases. The leases are for an average period of three years, with fixed rentals over the same period.

	20X2	20X1
	CU	CU
Minimum lease payments under operating leases recognised as an expense during the year	26,100	26,100

At year-end, the group has outstanding commitments under non-cancellable operating leases that fall due as follows:

	20X2	20X1
	CU	CU
Within one year	13,050	26,100
Later than one year but within five years	–	13,050
Later than five years	–	–
	<u>13,050</u>	<u>39,150</u>

22. Share capital

Balances as at 31 December 20X2 and 20X1 of CU30,000 comprise 30,000 ordinary shares with par value CU1.00 fully paid, issued and outstanding. An additional 70,000 shares are legally authorised but unissued.

23. Cash and cash equivalents

	20X2	20X1
	CU	CU
Cash on hand	28,700	22,075
Overdrafts	<u>(83,600)</u>	<u>(115,507)</u>
	<u>(54,900)</u>	<u>(93,432)</u>

Module 8—Notes to the Financial Statements

24. Contingent liabilities

During 20X2 a customer initiated proceedings against XYZ (Trading) Limited for a fire caused by a faulty candle. The customer asserts that its total losses are CU50,000 and has initiated litigation claiming this amount.

The group’s legal counsel do not consider that the claim has merit, and the Company intends to contest it. No provision has been recognised in these financial statements because the group’s management does not consider it probable that a loss will arise.

25. Events after the end of the reporting period

On 25 January 20X3 one of the candle storage rooms flooded. The cost of refurbishment is expected to be CU36,000. The reimbursements from insurance are estimated to be CU16,000.

On 14 February 20X3 the directors voted to declare a dividend of CU1.00 per share (CU30,000 total) payable on 15 April 20X3 to registered shareholders on 31 March 20X3. A liability is not shown in the statement of financial position at 31 December 20X2 because the obligation arose in 20X3.

26. Related party transactions

Transactions between the Company and its subsidiary, which is a related party, have been eliminated in consolidation.

The group sells goods to its associate (see note 12), which is a related party, as follows:

	<i>Sales of goods</i>		<i>Amounts owed to the group by the related party and included in trade receivables at year-end</i>	
	<i>20X2</i>	<i>20X1</i>	<i>20X2</i>	<i>20X1</i>
	<i>CU</i>	<i>CU</i>	<i>CU</i>	<i>CU</i>
Associate	10,000	8,000	800	400

The payments under the finance lease (see note 20) are personally guaranteed by a principal shareholder of the Company. No charge has been requested for this guarantee.

The total remuneration of directors and other members of key management in 20X2 (including salaries and benefits) was CU249,918 (20X1: CU208,260).

27. Approval of financial statements

These financial statements were approved by the board of directors and authorised for issue on 10 March 20X3.

Module 8—Notes to the Financial Statements

Answer to case study

- (a) **Could the group present two statements (ie a consolidated statement of comprehensive income and a consolidated statement of changes in equity) instead of presenting a consolidated statement of income and retained earnings?**

Yes, the group could present two statements (ie a consolidated statement of comprehensive income and a consolidated statement of changes in equity) instead of presenting a consolidated statement of income and retained earnings (see paragraphs 3.17 and 3.18).

- (b) **How would the presentation of the consolidated statement of income and retained earnings change if the group had a discontinued operation in the year ended 31 December 20X2?**

The group would present a separate line item in its statement of income and retained earnings comprising the total of (i) the post-tax profit or loss of a discontinued operation and (ii) the post-tax gain or loss attributable to an impairment or reversal of an impairment of the assets in the discontinued operation (see Section 27 *Impairment of Assets*), both at the time and subsequent to being classified as a discontinued operation and to the disposal of the net assets constituting the discontinued operation (see paragraph 5.5(e)). The line item would be presented above the profit for the year and separate from profit for the year from continuing operations.

- (c) **How would the presentation of the consolidated statement of income and retained earnings change if the group had a partly owned subsidiary?**

Applying paragraph 5.6 the group would disclose separately in the consolidated statement of income and retained earnings allocations for the period of profit or loss for the period attributable to:

- (i) non-controlling interest; and
- (ii) owners of the parent.

- (d) **Could the group choose to present an analysis of expenses by function instead of an analysis of expenses by nature?**

The group is required to present an analysis of expenses using a classification based on either the nature of expenses or the function of expenses within the group, whichever provides information that is reliable and more relevant (see paragraph 5.11).

Applying paragraph 3.11(a) the group cannot voluntarily change the presentation and classification of items in the financial statements from one period to the next unless it is apparent, following a significant change in the nature of the group's operations or a review of its financial statements, that another presentation or classification would be more appropriate having regard to the criteria for the selection and application of accounting policies in Section 10 *Accounting Policies, Estimates and Errors*.

Therefore, the group could change its presentation only if it is apparent following a significant change in the nature of the group's operations or a review of its financial statements that the presentation of an analysis of expenses by function would provide information that is reliable and more relevant than the analysis by nature.

Module 8—Notes to the Financial Statements

(e) Is the group required to disclose this line item ‘Profit before tax’?

Paragraph 5.5 does not require presentation of a separate line item ‘Profit before tax’. However, applying paragraph 5.9, an entity shall present additional line items, headings and subtotals in the statement of comprehensive income (and in the income statement, if presented), when such presentation is relevant to an understanding of the entity’s financial performance. That requirement applies equally to the group’s consolidated statement of income and retained earnings (see paragraph 6.5). Accordingly, management must apply its judgement to determine whether to present a separate line item ‘Profit before tax’.

(f) Does the IFRS for SMEs Standard prohibit use of the words ‘balance sheet’ instead of the words ‘statement of financial position’?

No, the *IFRS for SMEs* Standard does not prohibit use of the title ‘balance sheet’ for the statement of financial position. Paragraph 3.22 explicitly permits use of titles for the financial statements other than those used in the *IFRS for SMEs* Standard provided they are not misleading. Because ‘balance sheet’ is widely used in some jurisdictions to describe the statement of financial position use of that title is unlikely to be misleading.

(g) Does the IFRS for SMEs Standard prohibit presentation of the statement of financial position before the statement of income and retained earnings?

No, the *IFRS for SMEs* Standard does not prohibit presentation of the statement of financial position before the statement of income and retained earnings. Paragraph 3.21 requires that the entity present each financial statement with equal prominence.

(h) Does the IFRS for SMEs Standard require a statement of financial position at the beginning of the earliest comparative period?

No, the *IFRS for SMEs* Standard does not require a statement of financial position at the beginning of the earliest comparative period. Paragraph 3.14 requires comparative information only in respect of the previous comparable period.

(i) Instead of presenting its current assets separately from its non-current assets, and current liabilities separately from its non-current liabilities, could the group choose to present its assets and liabilities in order of their liquidity?

Except when a presentation based on liquidity provides information that is reliable and more relevant, an entity is required to present current and non-current assets and current and non-current liabilities, as separate classifications in its statement of financial position (see paragraph 4.4).

Applying paragraph 3.11(a), an entity cannot voluntarily change the presentation and classification of items in the financial statements from one period to the next unless it is apparent, following a significant change in the nature of the entity’s operations or a review of its financial statements, that another presentation or classification would be more appropriate having regard to the criteria for the selection and application of accounting policies in Section 10 *Accounting Policies, Estimates and Errors*.

Therefore, only if it is apparent, following a significant change in the nature of the group’s operations or a review of its financial statements, that a presentation based on liquidity provides information that is reliable and more relevant than a presentation of current and non-current could the group change its presentation.

Module 8—Notes to the Financial Statements

- (j) **When an entity presents its assets and liabilities in order of their liquidity, is that order ascending or descending?**

Applying paragraph 4.4, when an entity presents its assets and liabilities in order of their liquidity, all assets and liabilities shall be presented in order of approximate liquidity (ascending or descending), ie the entity can choose either an ascending or a descending order.

- (k) **Does the IFRS for SMEs Standard require the group to present this sub-heading?**

The IFRS for SMEs Standard neither requires nor prohibits the presentation of this subheading in the statement of cash flows. Accordingly, management applies its judgement to determine whether to present a subheading ‘cash flow included in investing activities’ in its consolidated cash flow statement presented on the indirect method.

- (l) **Does the IFRS for SMEs Standard require the group to separately disclose the amount of finance costs paid in cash?**

Yes, paragraph 7.14 requires separate presentation of cash flows from interest and dividends received and paid.

- (m) **Does the IFRS for SMEs Standard require the group to separately disclose the amount of income taxes paid in cash?**

Yes, paragraph 7.17 requires separate presentation of cash flows from arising from income taxes.

- (n) **What other measurement bases, if any, could the group adopt as its accounting policy for investments in associates?**

Applying paragraph 14.4 an entity accounts for its investments in associates using an accounting policy choice, such as:

- (i) the cost model in paragraph 14.5;
- (ii) the equity method in paragraph 14.8; or
- (iii) the fair value model in paragraph 14.9.

Applying paragraph 10.8(b), an entity cannot voluntarily change an accounting policy unless the change results in the financial statements providing reliable and more relevant information about the effects of transactions, other events or conditions on the entity’s financial position, financial performance or cash flows.

The group has adopted the cost model as its accounting policy for investments in associates. Management could justify a change to the fair value model (or the equity method) on the basis that it would provide reliable and more relevant information about the entity’s financial position, financial performance or cash flows than would the cost model.

Notes

An entity using the cost model is required to measure its investments in associates for which there is a published price quotation using the fair value model (see paragraph 14.7).

An entity using the fair value model is required to use the cost model for any investment in an associate for which fair value cannot be measured reliably without undue cost or effort (see paragraph 14.10).

Module 8—Notes to the Financial Statements

- (o) **Could the group change its accounting policy for borrowing costs so that borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset form part of the cost of that asset (ie can the group account for borrowing costs applying IAS 23 *Borrowing Costs* of full IFRS Standards)?**

No, the group cannot change its accounting policy for borrowing costs. The *IFRS for SMEs* Standard requires all borrowing costs to be recognised as an expense in profit or loss in the period in which they are incurred (see paragraph 25.2).

- (p) **If the group had purchased a trade mark the useful life of which management considers to be indefinite, would the group account for the trade mark at cost less accumulated depreciation and any accumulated impairment losses?**

Yes, all purchased intangible assets are accounted for at cost less any accumulated amortisation and any accumulated impairment losses (see paragraph 18.18). For the purposes of the *IFRS for SMEs* Standard all intangible assets are considered to have a finite useful life (see paragraph 18.19). If the useful life of an intangible asset cannot be established reliably, the life shall be determined based on management's best estimate but shall not exceed 10 years (see paragraph 18.20).

- (q) **What additional information, if any, would the group disclose in its 20X2 financial statements if management had found it difficult to classify (ie as an operating lease or a finance lease) a significant non-cancellable lease which the group entered into (as a lessee) in 20X2?**

If the classification judgement has a significant effect on the amounts recognised in the financial statements, the group would consider whether it should disclose information about the judgement that management made in classifying the lease to satisfy paragraph 8.6. The disclosure would be made in the summary of significant accounting policies or other notes.

- (r) **In what circumstances could the group not use the projected unit credit method to measure its defined benefit obligation?**

If the group was not able, without undue cost or effort, to use the projected unit credit method to measure its obligation and cost under defined benefit plans, the group would be permitted to make specified simplifications in measuring its defined benefit obligation with respect to current employees (see paragraph 28.19).

- (s) **Could the group present this amount as a separate line item in the consolidated statement of income and retained earnings described as 'Extraordinary item'?**

The *IFRS for SMEs* Standard explicitly prohibits use of the term 'extraordinary items' to describe any items of income and expenses in the statement of comprehensive income, the income statement and the notes (see paragraph 5.10). That requirement applies equally to an entity that presents a statement of income and retained earnings (see paragraph 6.5). Accordingly, the group cannot describe the gain as an extraordinary item in its consolidated statement of income and retained earnings. However, applying paragraph 5.9, an entity presents additional line items, headings and subtotals in the statement of comprehensive income (and in the income statement, if presented), when such presentation is relevant to an understanding of the entity's financial performance.

Module 8—Notes to the Financial Statements

The group may highlight the gain by separately presenting it as a distinct line item in the consolidated statement of income and retained earnings.

- (t) **Instead of presenting trade debtors and prepayments in the notes could the group present them as separate line items in the consolidated statement of financial position?**

Yes, the group could have presented trade debtors and prepayments as separate line items in its consolidated statement of financial position at 31 December 20X2 (see paragraph 4.11(b)).

The *IFRS for SMEs* Standard does not prescribe the sequence or format in which items are to be presented in the statement of financial position. Paragraph 4.2 simply provides a list of items sufficiently different in nature or function to warrant separate presentation in the statement of financial position. In addition:

- (a) line items are included when the size, nature or function of an item or aggregation of similar items is such that separate presentation is relevant to an understanding of the entity's financial position; and
- (b) the descriptions used and the sequencing of items or aggregation of similar items may be amended according to the nature of the entity and its transactions, to provide information that is relevant to an understanding of the entity's financial position (see paragraph 4.9).

The judgement as to whether additional items are presented separately in the statement of financial position is based on an assessment of all of the following:

- (a) the amounts, nature and liquidity of assets;
- (b) the function of assets within the entity; and
- (c) the amounts, nature and timing of liabilities (see paragraph 4.10).

- (u) **Instead of presenting raw materials, work in progress and finished goods in the notes could the group present them as separate line items in its consolidated statement of financial position?**

Yes, the group could have presented raw materials, work in progress and finished goods as separate line items in its consolidated statement of financial position at 31 December 20X2 (see paragraph 4.11(c)).

The *IFRS for SMEs* Standard does not prescribe the sequence or format in which items are to be presented in the statement of financial position. Paragraph 4.2 simply provides a list of items that are sufficiently different in nature or function to warrant separate presentation in the statement of financial position. In addition:

- (a) line items are included when the size, nature or function of an item or aggregation of similar items is such that separate presentation is relevant to an understanding of the entity's financial position; and
- (b) the descriptions used and the sequencing of items or aggregation of similar items may be amended according to the nature of the entity and its transactions, to provide information that is relevant to an understanding of the entity's financial position (see paragraph 4.9).

The judgement on whether additional items are presented separately in the statement of financial position is based on an assessment of all of the following:

Module 8—Notes to the Financial Statements

- (a) the amounts, nature and liquidity of assets;
- (b) the function of assets within the entity; and
- (c) the amounts, nature and timing of liabilities (see paragraph 4.10).

- (v) **Is it acceptable that the group has not provided comparative amounts for the reconciliation of the carrying amount at the beginning and end of the reporting period for property, plant and equipment?**

Yes, paragraph 17.31(e) provides that this reconciliation need not be presented for prior periods (ie it provides an exception to the requirement in paragraph 3.14 to provide comparative information in respect of the previous comparative period).

- (w) **Is it acceptable that the group has not provided comparative amounts for the reconciliation of the carrying amount at the beginning and end of the reporting period for intangible assets?**

Yes, paragraph 18.27(e) provides that this reconciliation need not be presented for prior periods (ie it provides an exception to the requirement in paragraph 3.14 to provide comparative information in respect of the previous comparative period).

- (x) **Is it permissible to offset deferred tax liabilities and deferred tax assets and to present the net deferred tax asset in the statement of financial position?**

Paragraph 2.52 prohibits offsetting assets and liabilities, or income and expenses, unless such offset is explicitly required or permitted by the *IFRS for SMEs* Standard.

Applying paragraph 29.37 the group is required to offset its deferred tax assets and deferred tax liabilities, because it has a legally enforceable right to set off the amounts and it intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. In all other circumstances the group would not be permitted to offset these balances.

- (y) **If a material amount of the deferred tax asset is expected to be realised in 20X3, can the group present the amount to be received in 20X3 as a current asset in its consolidated statement of financial position at 31 December 20X2?**

Applying paragraph 4.5(c) a deferred tax asset that is expected to be realised in 20X3 is a current asset. However, paragraph 29.36 prohibits the group from classifying any deferred tax as a current asset. Accordingly the group cannot present any part of its deferred tax asset as a current asset.

- (z) **Instead of presenting its cash (current asset) separately from its bank overdraft (current liability) could the group choose to present the net amount (eg 20X2: CU54,900) as a current liability 'cash and cash equivalents' in its consolidated statement of financial position (as presented in the consolidated statement of cash flows)?**

Paragraph 2.52 prohibits offsetting assets and liabilities, or income and expenses, unless such offset is explicitly required or permitted by the *IFRS for SMEs* Standard. In the absence of a specific exemption from this requirement (the *IFRS for SMEs* Standard does not provide an exemption) the group cannot present these items net in its consolidated statement of financial position.

Module 8—Notes to the Financial Statements

- (aa) Is it acceptable that the group has not provided comparative amounts for the reconciliation of the carrying amount at the beginning and end of the reporting period for provisions?**

Yes, paragraph 21.14 provides that this reconciliation need not be presented for prior periods (ie it provides an exception to the requirement in paragraph 3.14 to provide comparative information in respect of the previous comparative period).

- (bb) If the warranty was for a longer period (eg three years) what additional reconciling item, if any, would you expect to see in the disclosure about the changes in the provision for the period?**

In the reconciliation of the provision the amount that relates to the unwinding of the discount in the present value calculation would be separately disclosed (see paragraph 21.14(ii)).

- (cc) Is it acceptable that the group has not provided comparative amounts for the reconciliation of the carrying amount at the beginning and end of the reporting period for the employee benefit obligation?**

Yes, paragraph 28.41 provides that this reconciliation need not be presented for prior periods (ie it provides an exception to the requirement in paragraph 3.14 to provide comparative information in respect of the previous comparative period).
